ABOUT US..!!!

The 1940s was the Golden period of Indian medical missions, as every third bed in the country was a mission hospital bed! EHA began in the minds of a few, at a time when mission institutions were losing expatriate medical staff to stringent visa regulations in the 1950s and 60s. Thus, the need arose to have an indigenously-run medical organization overseeing mission hospitals from various missions.

The key question - ***“Would it be possible to attract Indian doctors with the necessary level of Christian motivation to renounce job prospects and to bury themselves in Village India??***

and proved successful in providing good services as well as being good examples to emulate.

In an initial environment of far-flung locations, poor means of transportation and communication, difficulty in recruiting appropriate staff and uncertain funding, the associated hospitals necessarily had to fend for themselves, often dependent on an individual or a couple to ensure their survival in an uncertain climate. As the work of coordination progressed over the years and more institutions were added to the group, the potential of such an organization was harnessed through a consultative process on the “Future Directions of EHA” in 1997. Clear vision and mission statements being prayerfully articulated, along with the attendant values to guide EHA - that we would be a **“FELLOWSHIP FOR TRANSFORMATION”** with a deliberate focus on the poor and marginalized in rural North India.

Right from its inception, the founding members were clear that:

- EHA would be an on-going, self-propagating indigenous Christian medical society - the first of its kind in mission history!
- The organization would, besides facilitating fellowship, cooperation and coordination among hospitals, also resume full responsibility for the operation and management of the institutions and their related facilities.
- EHA would move from just the provision of curative services to the then-revolutionary paradigm of capacity building of local communities towards holistic health and development, as per their felt needs.

Though considered impossible during a major consultation in 1968, the Emmanuel Hospital Association was nevertheless registered in November of 1969, with no hospitals as yet under its banner! That several different missions decided to ‘throw their hats in the ring’ and commit to the concept of an organization that had no track record to fall back on, is in itself a clear indication of the hand of God in the birth of EHA, as described by Rev. Dr. Thirumalai, a founding member, as **“more than a miracle”!**

The nucleus of EHA formed around 6 hospitals in the early 70s, with high quality dedicated professionals, meticulous accounting systems, code of Christian work ethics and close fellowship, among other benefits. More hospitals joined the Association with time.

The first major community health initiative based out of 7 EHA hospitals - the ambitious yet unique Master Plan - was launched in 1976, paving the way for the EHA model of comprehensive healthcare.

The 1980s ushered in a new model of community outreach in EHA which could best be described as stand-alone community programs. These ran independent of hospitals for more efficient and effective management of these health initiatives

WE CARE

RGB Meetings of EHA units

With the articulation of Vision and Mission statements, the idea of thinking and moving strategically took root at both the central and unit levels, guided by the documented statements and **non-negotiable values such as a commitment to fellowship, servant-leadership, teamwork, quality, focus on the poor and marginalized.** Significant strides forward included the introduction of computerization in our hospitals, Human Resource, financial systems and common reporting formats, that were progressively refined over time.

Nevertheless, the single most important factor that has kept the organization going and growing has been the unwavering emphasis on spiritual nurture and fellowship centred around its God-given vision, setting EHA apart from most other service-oriented organizations.

Governance & Ethos

EHA is a national Society registered in New Delhi, with its various hospitals, each being a locally registered Society, incorporated into the organization through a Deed. The Board of the central Society is responsible for the vision, mission and direction of the organization, through policies formulated by a participatory process involving all incorporated members and implemented uniformly across the board.

For ease of governance, the units are divided into five regions, each under a Regional Director, overseen by a central team of officers and thematic directors headed by the Executive Director. EHA strives to ensure that each hospital unit is self-sufficient in terms of running expenses, with large capital expenditure and the bulk of the community projects supported through external means.

It is part of the underlying ethos of EHA as an organization that no patient will be turned away for lack of finances, while deliberately focusing on the socio-economically weakest sections of communities served through integrated community health and development initiatives. The locations of most EHA units are intentionally in most of the backward, least-developed States, where a multi-pronged approach is most needed and effective.

The Future: Where is EHA headed?

A great challenge will be the paradigm shift of incorporating appropriate professionalism and modern technology into the routine functioning of EHA, even while ensuring that the values that have sustained and guided EHA are not diluted.

The wealth of experience acquired by the organization in integrated initiatives can be fully utilized in developing holistic models of community care that address much-neglected aspects such as mental illness, suicide prevention, care of the elderly, the disabled and terminally ill, and the inculcation of value systems in the youth of today

The opportunity to utilize EHA's acquired expertise in training could potentially be an effective platform for working alongside the government in fulfilling the aim of effective promotive, preventive and primary health at the grassroots level, in the country, keeping in mind our core calling – to be a transformative influence through our collective thinking and functioning for the glory of God.

EXECUTIVE DIRECTOR'S REPORT

DR. DEEPAK SAMSON SINGH

EXECUTIVE DIRECTOR

It is with gratitude and renewed hope that I present the Emmanuel Hospital Association's Annual Report for 2025–2026.

This year has been one of steady recovery, strategic growth, and faithful service, reaffirming that healthcare rooted in compassion, community, and faith remains a powerful source of hope.

Over the past year, we have operated in a challenging environment shaped by the lingering effects of global health crises, inflationary pressures, rising medicine costs, and uneven access to specialists. Yet our hospitals have continued to serve as places of healing, where clinical excellence and compassionate care are held together through the commitment of our staff and the trust of the communities we serve.

A major focus this year has been the strengthening of primary and community health services in underserved areas. We are deeply grateful to the Azim Premji Foundation for supporting several of our community engagement initiatives. Through investments in outreach, and preventive training for community health workers, we have expanded access, improved early detection, and deepened our partnerships with local stakeholders especially for non communicable diseases.

Quality improvement remains a strategic priority. While some of our hospitals have achieved NABH entry-level certification, others still face challenges in meeting quality standards. To address this, we have partnered with safecare.org to strengthen quality systems in 11 hospitals, with the goal of building consistently reliable healthcare across the network.

Our advocacy efforts also advanced this year, particularly in relation to equitable health financing and access to government support for patients affected by sickle cell anaemia, mental illness, and disability. These efforts reflect the importance of a collective faith-based voice in shaping policies that serve the poor and vulnerable.

Looking ahead to 2026–2027, EHA will focus on three priorities: strengthening primary health networks, expanding human resource development, and improving financial resilience. We will also accelerate our digital health initiatives to improve reporting, follow-up, and decision-making.

Challenges of hospitals needing repositioning, lack of specialists, and resources continue to help us depend on God for our provision.

I am deeply thankful to our hospital leaders, clinicians, support staff, volunteers, board members,, government partners, and the communities that place their trust in us. Their dedication makes this work possible.

We are grateful to all our partner organizations which have supported us through generous giving for both patient care and infrastructure, so that much-needed services could be accessible and available in our underserved locations

As we enter the new year, we do so with humility, gratitude, and confidence in our shared calling to serve with excellence, compassion, and dignity.

CHAIRMAN'S REMARKS

DR. PHILIP ALEXANDER

CHAIRMAN

I write this at a time that is both tumultuous and exhilarating for India. I also write as I approach the end of my tenure as Chairperson of EHA. I have served well beyond my original term, responding to the need to provide continuity during a period of significant leadership transition. Since 2022, that responsibility has been to guide EHA through three Executive Directors. I now lay down this responsibility with deep gratitude and the confidence that the leadership is firmly established, with steady hands on the rudder and a clear vision for the future.

Seasons of transition are seldom smooth, and EHA was no exception. Yet, through wisdom, perseverance, and God's grace, the organisation has navigated these waters well. Dr. Saira helped steer the ship toward calmer seas, and now, under the leadership of Dr. Deepak, there is a palpable sense of renewed energy and forward momentum. The transparency, integrity, and selfless service that have long characterised EHA have earned the confidence of philanthropic partners. Foremost among these is the Azim Premji Foundation, whose generous support will enable the development of several of our hospitals. We are deeply grateful for this partnership and for the opportunities it brings to strengthen our ministry of healing.

May we each be faithful in doing our part to write a story of hope for India. Through EHA, we have the privilege of representing the hidden aspirations of those who are forgotten, marginalised, and left without. Above all, may India see in us the reality of a life lived with Jesus Christ—a life faithfully lived out by His servants in humility, compassion, and truth. May EHA continue to be the salt of the earth and the light of the world.

REPORT FROM HOSPITALS

Baptist Christian Hospital (BCH), Tezpur is a 130-bedded mission hospital committed to providing compassionate, affordable, and quality healthcare to the people of Assam. The hospital delivers comprehensive secondary care through a wide range of clinical specialties while extending its work beyond the hospital campus through community health, disability support, palliative care, and public health initiatives.

The hospital also collaborates with government agencies, local organizations, and voluntary partners to strengthen healthcare delivery and improve access to services for underserved populations.

Major Highlights of the Hospital

- **Hospital Services and Patient Care:** BCH operated as a 130-bedded hospital, serving 80,872 outpatients, 6,112 inpatients, and performing 4,765 surgeries (1,225 major and 3,540 minor, including dental procedures). Clinical services included General and Laparoscopic Surgery, General Medicine, Obstetrics & Gynaecology, Paediatrics, Orthopaedics, Dermatology, Radiology, Urology, General Dentistry with Orthodontics, Prosthodontics, Maxillofacial Surgery, Palliative Care, and Adult & Paediatric Intensive Care.
- **Community Health Development:** Through its Community Health Development Project, BCH implemented UDAAN, a disability-inclusive program covering 2 blocks and 28 revenue villages in Sonitpur District and 2 blocks and 40 revenue villages in Karbi Anglong District. The hospital also implemented ABHAYA, a Drug Demand Reduction and HIV Prevention Programme in two blocks of East Karbi Anglong District, promoting awareness, prevention, and community engagement.
- **Palliative Care Services:** The Palliative Care Team provided both hospital-based and home-based care across five districts of Assam—Sonitpur, Nagaon, Darrang, Biswanath Chariali, and Udalguri—ensuring compassionate support for patients with life-limiting illnesses and their families.
- **Strategic Partnerships:** BCH maintained a strong partnership with the Rotary Club of Greater Tezpur, which continued to raise funds for palliative care patients. Collaboration with Sewa Bhawan Hospital, Dhekiajuli strengthened the delivery of home-based and hospital-based palliative care services. The hospital also partnered with the Indian Red Cross Society, where the faculty and students of the School of Nursing actively participated in blood donation drives, training programmes, and community awareness activities, reinforcing BCH's commitment to service beyond the hospital.

Burrows Memorial Christian Hospital (BMCH), Alipur is a 70-bedded mission hospital, established in 1935, committed to providing compassionate, affordable, and quality healthcare to the underserved communities of Cachar district, Assam. The hospital primarily serves tea garden workers, tribal populations, and economically disadvantaged families living in rural and remote areas.

BMCH provides comprehensive inpatient and outpatient medical services, including General Medicine, Obstetrics & Gynaecology, Paediatrics, General Surgery, Dentistry, ENT, Laboratory Services, Pharmacy, Radiology, and Emergency Care. The hospital continues its partnership with the National Health Mission (NHM), Government of Assam, in strengthening maternal and child healthcare services.

Major Highlights of the Hospital

- **Comprehensive Healthcare Services:** Continued delivery of inpatient and outpatient services across General Medicine, Obstetrics & Gynaecology, Paediatrics, General Surgery, Dentistry, ENT, Laboratory Services, Pharmacy, Radiology, and Emergency Care.
- **Home-Based Palliative Care Programme:** Multidisciplinary teams regularly visited patients with cancer and other life-limiting illnesses, providing comfort, dignity, symptom management, emotional support, and care in their homes.
- **Community Health Outreach:** The Community Health Department conducted medical camps, cancer awareness programmes, first aid training, health education sessions, and preventive healthcare initiatives in villages, schools, colleges, and tea garden communities.
- **Nursing Education:** BMCH continued to train General Nursing & Midwifery (GNM) students, preparing compassionate nurses committed to serving mission hospitals and underserved regions across India.
- **Strategic Partnerships:** Continued collaboration with the National Health Mission (NHM), Government of Assam, Silchar Medical College Hospital, Azim Premji Foundation, Christian Medical College (CMC), Vellore, Bangalore Baptist Hospital, WRI, Thoughtworks, EHA institutions, CMAI, mission organizations, and charitable trusts to strengthen specialist services, professional training, continuing education, community outreach, and infrastructure development.
- **Future Focus:** Plans include recruiting additional full-time consultants, expanding the Home-Based Palliative Care Program, establishing a blood storage centre, strengthening community health outreach, enhancing GNM training capacity from 20 to 35 seats per year, and improving staff accommodation and hospital infrastructure.

Makunda Christian Leprosy & General Hospital

The Makunda Christian Leprosy and General Hospital (MCL&GH) Society has recently completed 75 years of service and is a member of the Emmanuel Hospital Association dedicated to serving poor and marginalized communities. Located in the Sribhumi district of Assam, the Society operates an accredited 211-bed hospital, a higher secondary school, and a dedicated department for agriculture and animal husbandry. It also runs a smaller, 12-bed branch hospital in Ambassa, within the Dhalai District of Tripura.

The primary facility provides a comprehensive range of healthcare specialties, including General Medicine with an Intensive Care Unit, General Surgery and Orthopedics with advanced laparoscopic procedures, Obstetrics and Gynecology (including laparoscopic surgeries) and Pediatrics supported by a Neonatal ICU, along with dedicated services in Psychiatry, Dentistry, and Community Health.

Major Highlights of the Hospital

- **Community Outreach:** Centred mostly within the Lowairpoa Community Development Block, the hospital hosts monthly community ANC clinics across three government sub-centres, monthly psychiatric clinics at a Catholic dispensary and two government sub-centres plus the Ambassa branch, and home-based healthcare for palliative and disability patients, along with monitoring for high-risk mothers.
- **Partnership with Azim Premji Foundation:** In October 2024, funding was authorized for "PARIVARTAN - Makunda Primary Health Care Program," designed to deliver and reinforce primary healthcare services across 13 villages within the Lowairpoa Community Development Block.
- **Government Collaboration:** A public-private alliance with the National Health Mission (NHM) Assam, active since 2008, supports maternal and pediatric treatments through Janani Suraksha Yojana cash incentives, free prenatal care under Pradhan Mantri Surakshit Matritva Abhiyan, and coordination on ICTC, RNTCP, NLEP, routine vaccinations, and AFP initiatives, including RNTCP DOTS and TRUENAT diagnostics.
- **Global Training Partnerships:** An ongoing alliance with the Royal Dutch Tropical Institute (KIT), Amsterdam, facilitates postgraduate training in tropical medicine, hosting six Dutch resident interns during the current period. The Aloka Vision Program, backed by ZEISS, distributes affordable eyeglasses to underprivileged residents.
- **Educational Exchanges:** The hospital provides clinical training to GNM nursing students from BMCH Alipur and CIHSR Dimapur, and hosts medical students from CMC Vellore and Believers Church Medical College for hospital rotations.
- **Challenges and Future Plans:** The hospital currently operates without a permanently stationed resident surgeon and paediatrician. Future plans include setting up a dedicated blood banking facility, strengthening the Ambassa branch site, developing a second tier of administrative and medical leaders, and elevating academic standards at the associated school.

Prem Jyoti Community Hospital was established in 1996 as a community outreach initiative among the Malto tribal population living in some of the most remote and underserved regions in Jharkhand state of India. What began as a modest outreach program has gradually grown into a 35-bedded hospital that now serves thousands of vulnerable families belonging primarily to the Malto and Santhali tribal communities.

The hospital provides comprehensive, patient-centred healthcare through Outpatient, Inpatient, Critical Care, Maternal and Child Health, Neonatal, Laboratory, and Radiology services.

Major Highlights of the Hospital

- **Advanced Surgical Services:** Introduction of Advanced Laparoscopic surgeries and Endoscopy, being the first in the region, has spared patients long-distance travel, alongside the launch of regular Ophthalmology services including OPD, community screening, and surgical services.
- **Strengthened Diagnostics:** Laboratory and Radiology Departments were further strengthened, with the laboratory maintaining high-quality standards through participation in the External Quality Assurance Scheme (EQUAS) coordinated by CMC Vellore, and specialized investigations continued through collaboration with Thyrocare and CMC Ludhiana.
- **Community Outreach:** The hospital conducts communicable and non-communicable disease prevention initiatives, a palliative care programme, mobile clinic services, health education sessions, and a school health programme for the Malto and Santhali communities.
- **Partnership with Azim Premji Foundation:** A major development was the partnership for the Community Health Programme implemented across 39 villages in Barhait Block, strengthening primary healthcare, preventive and promotive health services, and capacity building of community health workers.
- **Support from Madhipura Christian Hospital:** MCH extended support to PJCH from May 2025 onwards to sustain its healthcare services and institutional functioning, ensuring uninterrupted delivery of OPD, IPD, emergency care, maternal and child health, and critical care. JSF support also enabled procurement of essential medical equipment for the Ophthalmology Department.
- **Challenges and Future Plans:** Key challenges included geographical barriers, low literacy and poor health awareness, human resource constraints, and financial limitations. Future plans include expansion of community health services, development of new partnerships, financial sustainability and resource mobilization, and expansion of clinical services including eye surgeries with a new Eye OT.

Madhipura Christian Hospital (MCH) is situated in one of the most backward regions of India, with Madhepura and its surrounding four districts ranked among the worst 25 districts of India per the National Family Welfare Survey 2015-16. The hospital began in 1953 by the World Mission Board of the Brethren in Christ Church. Despite facing many challenges and coming close to closure multiple times, MCH stands today as a vital healthcare institution for Madhepura district and the surrounding regions of north-eastern Bihar, remaining committed to providing compassionate, affordable, and quality healthcare regardless of socioeconomic status. The hospital has grown rapidly, expanding from a 35-bedded centre to a 100-bedded NABH entry-level accredited hospital in the last four years, serving as the main referral centre for the region and offering secondary, and in some cases tertiary, level care across multiple disciplines.

Major Highlights of the Hospital

- **Growing Clinical Services:** The hospital recorded 61,551 outpatients and 5,289 inpatients during the year, with 1452 major and minor surgeries performed, including 247 surgeries in EHA outstation camps. There were 1,480 deliveries, 4,007 dental patients, 1,46,742 laboratory tests, and 8,060 radiological services provided.
- **Advanced Surgical Milestones:** The hospital introduced Single Incision Laparoscopic Surgery, ERCP, and advanced Urology procedures for the first time in the district, with 6 advanced ERCP procedures performed under guidance from CMC Vellore faculty.
- **Community Outreach:** The Community Health and Development Programme reached 91,895 people, organising 151 medical camps for 4,916 patients, screening 1,097 children for malnutrition and 1,066 for non-communicable diseases and cancer, and conducting 818 palliative care home visits supporting 153 patients. 469 children were enrolled in 16 non-formal schools.
- **Strategic Partnerships:** A major milestone was the new partnership with the Azim Premji Foundation to strengthen the Community Health Programme. Continued collaborations included EMMS International for girls' education sponsorship, the Life Association for non-formal schools, and Light the Candle International for community learning centres.
- **Key Achievements:** Launch of regular Ophthalmology services, implant and orthodontic dental services, CMC Vellore collaboration for ICU rounds and echocardiography training, an Advanced Critical Care Fellowship for nurses, and the first Annual Sports Day celebration.
- **Challenges and Future Plans:** Key challenges included land-related issues, infrastructure and staffing gaps, low health awareness, and serving remote communities. Future plans include a new Emergency Complex with CT Scan, satellite centres in neighbouring districts, a nursing school, and a formal school for community children.

Duncan Hospital, Raxaul, is a 200-bed mission hospital serving the Indo-Nepal border region of Bihar. During FY 2025–26, the hospital recorded 1,61,975 outpatient registrations, 12,322 inpatient admissions, 7,340 surgeries, and 2,654 deliveries, reflecting its vital role in providing quality healthcare to the region. The hospital offers comprehensive services in General Medicine, Anaesthesiology, Paediatrics, Orthopaedics, Dentistry, General Surgery, Obstetrics & Gynaecology, Radiology, Psychiatry, and Physical Medicine & Rehabilitation (PMR). Alongside hospital-based services, the Community Health & Development Programme continues to extend healthcare to vulnerable communities through disability rehabilitation, mental health, non-communicable disease management, palliative care, maternal health, anti-human trafficking initiatives, girls' education, and non-formal education programmes for marginalized children.

Major Highlights of the Hospital

- **Comprehensive Healthcare Services:** Recorded 1,61,975 OPD registrations, 12,322 IPD admissions, 7,340 surgeries, and 2,654 deliveries, while providing specialist services across multiple clinical departments, including the revival of General Surgery from March 2026.
- **Community Health & Development Programme:** Continued implementation of community-based initiatives including CBR, Nayi Roshni, Chetna NCD & Palliative Care, Nayi Umeed, Karuna, Nyay Network/Speak for Them, and the ASHA/DIYA programme, reaching thousands of people through disability support, mental health services, maternal health, palliative care, anti-human trafficking interventions, girls' education, and community development.
- **Academic and International Partnerships:** Strengthened clinical training through collaborations with CMC Vellore, CMC Ludhiana, Believers Church Medical College, CFH Oddanchatram, and Martin Luther Christian University, Shillong. International partners, including Love Without Reason, EMMS International, The Duncan Hospital Charitable Trust, and the MacKay family, supported surgical camps, infrastructure development, and equipment.
- **Government Collaboration:** Continued partnerships with local government agencies, BNRC/Jhpiego, DOTS and ART centres, and WHO to strengthen nursing accreditation, disease surveillance, vaccination programmes, and public health services.
- **Maternal and Community Health Impact:** The Nayi Umeed project improved maternal health outcomes by reducing the near-miss ratio from 4.68% to 3.14%, while the Chetna programme enrolled 503 patients with non-communicable diseases and reached over 10,000 people through NCD and palliative care services.
- **Infrastructure and Future Readiness:** Continued investment in nursing education, digital transformation, infrastructure development, and community outreach, with plans to expand specialist services, strengthen IT systems, increase GNM intake, and deepen community health initiatives.

Nav Jivan Hospital, Tumbagara, is a 100-bedded charitable mission hospital of the Emmanuel Hospital Association, serving the people of Palamau and neighbouring districts since 1961. Located in a predominantly rural and underserved region of Jharkhand, the hospital continued its commitment during 2025-2026 to providing compassionate, affordable, and quality healthcare, particularly to poor and vulnerable communities. The hospital provides inpatient services including 24x7 Emergency, Labour Room, Maternity Ward, ICU, NICU, and General and Private Wards; outpatient services in General Medicine, Obstetrics and Gynaecology, Dentistry, Ophthalmology, and Paediatrics; and support services including Laboratory, X-ray, Ultrasound, and Pharmacy. Nav Jivan School continues to provide education from Nursery to Class V to around 220 children with 12 teachers.

Major Highlights of the Hospital

- **Community Programmes:** The hospital continued its Community Health, Palliative Care, and Rehabilitation Programmes, serving people in rural and underserved communities.
- **TB Partnership:** Nav Jivan Hospital continued its long-standing partnership with the Government of Jharkhand under the National Tuberculosis Elimination Programme (NTEP), operating a Tuberculosis Unit through a Public-Private Partnership model. Services included TB screening, diagnosis, treatment support, follow-up, and community-based care.
- **Challenges Faced:** The hospital faced shortages and retention challenges involving qualified medical and nursing personnel, rising operational costs, ageing infrastructure and equipment, and increasing healthcare needs among poor rural communities. Recruiting specialists to a remote location remained particularly difficult. Financial sustainability was another concern, addressed through focused recruitment, staff training and mentoring, strengthening internal systems, and mobilising support for essential equipment and infrastructure.
- **Clinical Strengthening Plans:** Future plans include recruiting qualified doctors and nurses, upgrading critical medical equipment, and strengthening the Outpatient Department, Operation Theatre, and Rehabilitation Services.
- **Community and Education Expansion:** The hospital plans to expand its Community Health Programme to reach more remote villages, strengthen School Health Awareness Programmes, and introduce informal education for rural children, while expanding Palliative Care and Rehabilitation services.
- **New Initiatives:** Plans include starting a Diploma in Medical Laboratory Technology (DMLT) course, establishing a School of Nursing, and developing a de-addiction centre with separate facilities for men and women. These initiatives aim to create educational and career opportunities for young people, particularly those from rural areas, while contributing to the availability of trained healthcare professionals. Other priorities include improving quality and documentation systems, progressing towards accreditation standards, upgrading infrastructure, and developing staff accommodation.

Broadwell Christian Hospital (BCH), Fatehpur, has been providing compassionate healthcare for over 117 years. Established in 1904 as a small clinic by Dr. Jemima Mackenzie, the hospital has grown into a multi-specialty hospital and a hub for Community Health and Development Programmes. BCH remains committed to providing compassionate, quality, and holistic healthcare to people from all walks of life.

The hospital offers services in Obstetrics & Gynaecology, General Medicine, Radiology, Physical Medicine & Rehabilitation (PMR), Dentistry, and specialty clinics in Paediatrics, Orthopaedics, Psychiatry, and Ophthalmology. It also provides 24-hour emergency care, diagnostic services, intensive care, home-based palliative care, disability clinics, immunization services, and TB care while extending charity care to economically disadvantaged patients.

Major Highlights of the Hospital

- **Comprehensive Healthcare Services:** Continued delivery of specialist services through General Medicine, Obstetrics & Gynaecology, Radiology, PMR, Dentistry, and monthly specialty clinics in Paediatrics, Orthopaedics, Psychiatry, and Ophthalmology, supported by visiting consultants.
- **Community-Based Rehabilitation (CBR):** Successfully restarted the Community Based Inclusive Development (CBID) programme, providing disability screening, rehabilitation services, outreach visits to Anganwadi centres, and home-based physiotherapy for persons with disabilities in rural communities.
- **Home-based Palliative Care:** Continued comprehensive palliative care services for patients with cancer and other life-limiting illnesses. Since its inception in 2012, the programme has supported nearly 813 patients. During the year, 130 new patients were enrolled, 180 patients remained under active care, and over 1,100 home visits were conducted.
- **TB Elimination and Nutrition Support:** Received recognition from the District Health Society for its contribution to TB eradication. Conducted TB screening camps, awareness programmes, and launched a nutrition support initiative for TB patients from marginalized communities.
- **Community Education and School Wellness:** Through the HOSLA Project, 20 women completed the Healthcare Foundation Course, with six securing in-house employment. The School Wellness Programme reached 32 schools and benefited 5,380 students through health education, hygiene awareness, and dental screening.
- **Quality Improvement and Digital Transformation:** Achieved Manyata Certification, enrolled in the SafeCare quality programme, and upgraded from Easy Care HMS to a comprehensive Electronic Medical Record (EMR) system, strengthening quality of care and digital healthcare services.

Prem Sewa Hospital (PSH) in Utraula, Uttar Pradesh, is a mission hospital serving rural and under-resourced populations with essential healthcare services. With a legacy of compassionate, Christ-centred care, PSH has offered affordable treatment across multiple departments and extended health outreach through palliative and community-based programs.

Over the years, the hospital has been a trusted institution for maternal care, ophthalmology, and general medicine. Prem Sewa Hospital, continued to provide a range of clinical and community outreach services during 2025-26.

Major Highlights of the Hospital

- **Services Rendered:** Within the hospital, services included Obstetrics & Gynaecology OPD, Ophthalmology OPD, IP & Surgical services, Palliative Care IP & OP services, Community Health Awareness activities, and General Patient services covering ANC, Infertility clinics, Dental, and Leprosy OPD.
- **Community Outreach Programs:** The hospital conducted Palliative Care home-based care along with NCD and Eye Screening Camps.
- **Partnership:** The Savitri Foundation continued its partnership for palliative care.
- **Challenges Faced:** The absence of a consultant gynaecologist completely stopped Gynae/general IP services, and mounting liabilities, particularly non-payment of salary to staff, remained a matter of big concern.
- **Future Plans:** Plans include re-starting IP services with the joining of a consultant gynaecologist, focusing on community health with available resources while exploring partnerships with like-minded organizations, strengthening departments with more trained staff, and undertaking much-needed and long-pending renovation works, especially of the clinical areas.

Kachhwa Christian Hospital (KCH), a unit of Emmanuel Hospital Association, is a 25-bedded secondary care multi-specialty hospital located in Kachhwa Bazar, Mirzapur District, Uttar Pradesh. Established in 1897 by the London Missionary Society and later handed over to the Bible Churchmen's Missionary Society in 1929, the hospital is now part of the Emmanuel Hospital Association network. Along with clinical services, KCH provides a wide range of Community Health and Development programmes in surrounding villages.

Major Highlights of the Hospital

- **Comprehensive Healthcare Services:** Continued delivery of multi-specialty services including General Medicine, Obstetrics & Gynaecology, Paediatrics, Ophthalmology, Head & Neck Oncology, Maxillofacial Surgery, General and Laparoscopic Surgery, Physiotherapy, ICU, Diagnostic Services, Endoscopy, Colonoscopy, Pharmacy, and TB DOTS services.
- **Community Health & Development:** Implemented programmes focusing on women and adolescent empowerment, palliative care, tuberculosis, tobacco cessation, mental health, reusable sanitary pad production, agriculture, veterinary services, child development centres, and the Class to Career programme.
- **Primary Health Care Initiative:** Launched a Primary Health Care Project in partnership with the Azim Premji Foundation, covering three villages and focusing on maternal and child health, tuberculosis, and non-communicable diseases.
- **Mental Health Programme:** Introduced Man ki Awaz, a community mental health initiative to promote awareness, facilitate early identification of mental health issues, and provide support within the community.
- **Future Community Expansion:** Planned expansion of the Community Health Programme into the aspirational Patehra Block in partnership with Tata Trust, with services including a mobile ambulance, telemedicine, village clinics, and community awareness programmes. The hospital also continues to strengthen its Head & Neck Oncology department with the vision of developing it into a centre of excellence for surgical care.

Jiwan Jyoti Christian Hospital (JJCH) continued its mission of providing quality, compassionate healthcare to the communities it serves. During FY 2025–26, the hospital remained committed to delivering comprehensive healthcare despite various challenges, supported by a dedicated team of doctors, nurses, technicians, support staff, and administrative personnel whose service continues to be the foundation of its work.

Major Highlights of the Hospital

- **Comprehensive Healthcare Services:** Provided care to 72,012 outpatients, recorded 3,721 inpatient admissions, and performed 2,723 major and minor surgeries across General Surgery, Obstetrics & Gynaecology, Ophthalmology, ENT, Medicine, and Dental services.
- **Strengthened Specialist Services:** Expanded specialist care with the appointment of an ENT Specialist, Dental Surgeon, and General Surgeon, while visiting ophthalmologists and other specialists enhanced access to consultations, cataract surgeries, and quality eye care.
- **Capacity Building:** Conducted staff development sessions on topics including excellence in nursing care, culture of caring, soft skills, roles and responsibilities, thriving marriages, and working from rest. The hospital also benefited from visits by experienced medical professionals who encouraged and mentored the team.
- **Community Health Partnerships:** With support from the Azim Premji Foundation, launched a Mother and Child Health Project covering 11 villages across three panchayats in Nagwa Block, focusing on maternal health, care for lactating mothers, and complete immunization of children under five years of age.
- **Healthcare Career Development:** Through support from EMMS UK, the Healthcare Career Pathways Project is empowering financially vulnerable young women by supporting their training as General Nursing Midwives (GNM) and Auxiliary Nursing Midwives (ANM). The Sight Restorer Training Project, supported by India Collaboration, is equipping rural youth with skills in eye refraction, cataract and glaucoma screening, and community vision care.

Champa Christian Hospital Society, continued providing accessible, affordable, and compassionate healthcare to communities in Janjgir–Champa and surrounding districts.

Community outreach remained central through home-based palliative care, outreach clinics, medical camps, disaster management training, and community health programmes. These initiatives promote health awareness, disease prevention, disability inclusion, mental health, gender equality, and access to government welfare schemes across Janjgir–Champa, Sakti, and Korba districts.

Major Highlights of the Hospital

- Comprehensive Healthcare Services: Continued delivery of General Medicine and Critical Care, Obstetrics and Gynaecology, Radiology, Audiology, in-house Palliative Care, weekly Paediatric clinics, and monthly free medical camps.
- Community Outreach: Conducted home-based palliative care, outreach clinics, free medical camps, disaster preparedness training, and community health programmes focusing on health education, disability inclusion, mental health, prevention of domestic violence and human trafficking, non-communicable diseases, and community leadership.
- Free Surgical Camp: In collaboration with Navjeevan Community Development Society (NCDS), the hospital organised a free surgical camp in October 2025 during which 126 patients underwent surgical procedures free of cost, while also strengthening hospital operations.
- Strong Partnerships: Continued collaboration with Transform Aid International, Tear Australia, BL Home (The Leprosy Mission) Hospital, Helping Hands USA, Azim Premji Foundation, Health Serve Australia, and EHA hospitals strengthened clinical services, infrastructure, staff support, and community health initiatives.
- Major Infrastructure Support: Received a grant of approximately ₹1.6 crore from the Azim Premji Foundation for renovation of hospital buildings, procurement of medical equipment, doctors' salaries, and electricity expenses. Health Serve Australia also supported renovation of the Intensive Care Unit and construction of an overhead protective shelter.
- Specialist Support: Weekly Paediatric Outpatient Clinics by Dr. Akansha Lall and clinical collaboration with specialist consultants from EHA hospitals helped strengthen specialist care throughout the year.

Lakhnadon Christian Hospital (LCH) was established by missionaries from Scotland, affiliated with the Free Church of Scotland, who came to India in the early 1920s to preach the gospel among poor and marginalized communities and plant a church. In the 1970s, Dr. D.M. MacDonald, a Scottish surgeon, developed and expanded the hospital as a surgical unit. It later functioned as a secondary healthcare centre, providing Surgery, Paediatrics, Obstetrics and Gynaecology, Psychiatry, Medicine, and emergency services.

On March 30, 1998, LCH was registered as Lakhnadon Christian Hospital Society under the Indian Societies Registration Act at Jabalpur and under FCRA for receiving overseas aid. After closing in 2019 due to shortage of doctors, the hospital has since resumed services, guided by its vision of "Fellowship for transformation through caring" and a mission of quality, affordable, ethical, and holistic healthcare.

Major Highlights of the Hospital

- **Comprehensive Healthcare Services:** Outpatient and inpatient services resumed and expanded, covering infectious and chronic diseases, paediatrics, minor surgeries, and palliative home-based care, supported by 12 general beds, 4 high-dependency beds, and 4 private wards.
- **Outpatient Growth:** OPD services, resumed in January 2022, recorded 4,690 OP visits during the reporting year, with surgical services strengthened by the joining of a new surgeon couple.
- **Home-based Palliative Care:** The programme currently supports 80 enrolled patients, offering ongoing home-based care.
- **Inpatient Services:** Admissions stood at 161, compared to 233 the previous year, mainly due to renovation of the inpatient department, which commenced in December 2025 with support from the Azim Premji Foundation; only 10 temporary beds (of 20 approved) are currently operational.
- **Strategic Partnership:** The Azim Premji Foundation provided major support for renovation of the IPD, labour room, and ICU, sanctioned funds for a USG machine, and strengthened maternity services with new staff. EHA USA, Presbyterian Free Church Scotland & Australia, and sister EHA hospitals continued their support.
- **Challenges and Future Plans:** Shortage of Medical Officers and limited diagnostic facilities remain key challenges. Future plans include nursing education, community outreach, doctor recruitment, and completion of the new inpatient and operation theatre buildings by 2026.

Chinchpada Christian Hospital (CCH), a unit of Emmanuel Hospital Association (EHA), is a not-for-profit secondary care hospital located in the tribal and rural belt of Nandurbar district, Maharashtra. Established in 1942 as a small clinic, the hospital has grown into a trusted healthcare institution serving marginalized and underserved populations, particularly tribal communities, economically vulnerable families, women, children, and patients requiring affordable secondary care services.

The hospital provides compassionate, affordable, and holistic healthcare through outpatient, inpatient, surgical, emergency, preventive, and outreach services. During FY 2025–26, Chinchpada Christian Hospital and its Community Health Department employed 115 staff members and recorded 28,975 outpatient visits and 3,143 inpatient admissions, reflecting its critical role as a healthcare lifeline for tribal and rural populations across the region.

Major Highlights of the Hospital

- **Comprehensive Healthcare Services:** Continued delivery of General Medicine, Intensive Care Unit (ICU), Emergency and Casualty Services, General Surgery, Obstetrics & Gynaecology, Dental Services, Home-based Palliative Care, Pharmacy, and Laboratory & Diagnostic Services.
- **Community Outreach:** The Community Health Department conducted 36 outreach clinics across 23 villages, providing healthcare services to 1,305 patients and strengthening access to healthcare for remote and vulnerable populations.
- **Home-based Palliative Care:** The Palliative Care Programme supported 297 patients, conducted 2,212 home visits, registered 164 new patients, and provided compassionate end-of-life care to 93 patients, offering counselling, symptom management, and family support.
- **Strategic Partnerships:** Continued collaboration with Emmanuel Hospital Association, Azim Premji Foundation, Savitri Waney Charitable Trust, Medic Assist International, Christian Medical College (CMC), Vellore, Believers Church Medical College, CMC Ludhiana, Life for a Child, Government Health Systems, and community partners to strengthen healthcare delivery, capacity building, and public health programmes.
- **Strengthening Diagnostic and Community Health Services:** With support from the Azim Premji Foundation, the hospital installed a CT Scan facility and successfully completed the first year of the Comprehensive Primary Health Care (CPHC) Project, addressing non-communicable diseases, sickle cell disease, and cancer screening.
- **Support for Children with Diabetes:** Through the Life for a Child (LFAC) programme, the hospital enabled access to free treatment and ongoing support for children living with Type 1 Diabetes Mellitus.

Sewa Bhawan Hospital, Jagdishpur is not merely a hospital, but a living example of service, compassion, and humanity. Located in the small rural hamlet of Jagdishpur under Basna Block in Mahasamund District, the hospital has been serving communities for nearly 100 years and is now approaching a remarkable century of dedicated healthcare service. The hospital functions as a unit of the Emmanuel Hospital Association (EHA), guided by the organization's values of compassion and dedicated service, remaining committed to reaching the most underserved and vulnerable sections of society with accessible and quality healthcare services. Situated in a rural and tribal belt near the borders of Chhattisgarh and Odisha, the hospital has become a trusted healthcare centre for people from both states, with many patients travelling long distances under difficult circumstances just to reach medical care.

Major Highlights of the Hospital

- **Comprehensive Clinical Services:** The hospital provides a wide range of medical services including general healthcare, Maternal and Child Health (MCH) care, Palliative Care, Obstetric and Gynaecological services, and General Surgery emergency care, through experienced doctors and trained healthcare staff.
- **Modern Medical Equipment:** To ensure better healthcare services, the hospital is equipped with a CT Scan, Ultrasound, Digital X-Ray, Anesthesia Machine, Ventilator Support, Pathology Laboratory Services, and Oxygen and Emergency Care Facilities.
- **Community Outreach and Palliative Care:** A dedicated medical team regularly visits nearby villages to identify seriously ill and needy patients and provides free palliative care services directly at their homes, offering emotional support, counseling, and compassionate care to patients and their families.
- **Free Health Camps:** The hospital regularly organizes free health camps, consultations, and treatment services in surrounding villages to ensure that poor and marginalized communities receive timely healthcare support.
- **Legacy of Service:** Today, Sewa Bhawan Hospital stands not only as a healthcare institution but also as a story of faith, compassion, and countless blessings from the communities it serves, holding a special place in the hearts of the people it has served over the years.
- **Future Commitment:** In the years ahead, the hospital remains committed to delivering healthcare with modern medical technology, human compassion, and a spirit of service, ensuring that no individual is deprived of treatment because of poverty, distance, or lack of resources, guided by its values of Fellowship, Justice, Compassion, and Transformation.

Christian Hospital Chhatarpur, is a 100-bed hospital serving poor and marginalized communities of Bundelkhand with quality, affordable healthcare and nursing education. The hospital provides inpatient and outpatient services in Obstetrics & Gynaecology, Paediatrics, Medicine, Critical Care, Orthopaedics, Ophthalmology, Dentistry, Psychiatry, and Clinical Psychology. Community outreach includes preventive health initiatives, medical camps, palliative care, school health programmes, rural eye care, and mental health awareness. Established in 1975, the School of Nursing is recognized by the State and Indian Nursing Councils. During the year, four new skills laboratories and additional classrooms strengthened infrastructure and practical training for nursing students.

Major Highlights of the Hospital

- Comprehensive Healthcare Services: Continued delivery of specialist services in Obstetrics & Gynaecology, Pediatrics, Medicine, Critical Care, Orthopaedics, Ophthalmology, Dentistry, Psychiatry, and Clinical Psychology through inpatient and outpatient departments.
- Community Outreach: Conducted regular medical camps in the District Jail, weekly school health screening programmes covering over 5,000 students and staff annually, rural eye care camps, home-based palliative care, and mental health awareness programmes in schools.
- Strengthened Nursing Education: Constructed four new skills laboratories with TIMT support and equipped them according to Indian Nursing Council standards. EHA USA also supported improvements to classrooms, strengthening experiential learning and clinical training.
- Community Health & Development Programme: Implemented three major projects covering 124 rural villages and 10 urban wards, benefiting 44,968 families with a population of 233,834 through primary healthcare, disability inclusion, adolescent empowerment, palliative care, and girl child education initiatives.
- Primary Healthcare Strengthening: Through the Azim Premji Foundation-supported Comprehensive Primary Health Care Project, the hospital strengthened public health systems, trained frontline health workers, formed adolescent girls' groups, conducted non-communicable disease screenings for 17,435 people, and expanded rural palliative care services.
- Disability and Girl Child Initiatives: Through partnerships with Joni and Friends and the Invisible Girl Project, the hospital promoted disability inclusion, rehabilitation, community participation, and educational support for vulnerable girl children across Chhatarpur district.

Landour Community Hospital (LCH) is committed to providing accessible, affordable, and compassionate healthcare to the people of Mussoorie and the Garhwal Himalayas. During 2025–26, LCH strengthened hospital-based and community health services while successfully completing the first year of its five-year Strategic Plan. Despite a challenging financial and healthcare environment, the hospital demonstrated resilience through strategic investments and strengthened partnerships.

LCH continued comprehensive emergency, outpatient, inpatient, surgical, maternity, rehabilitation, diagnostic, and community health services, maintaining 24-hour emergency care. Specialist services included Family Medicine, Orthopaedics, Dentistry, Obstetrics & Gynaecology, Psychiatry, Ophthalmology, and Rehabilitation. Guided by its vision and core values, LCH remains committed to serving poor and marginalized communities through high-quality, compassionate healthcare and holistic community development across the Garhwal Himalayas.

Major Highlights of the Hospital

- **Revival of Maternity Services:** A major achievement was the successful revival of Obstetrics and Gynaecology services following the appointment of a consultant obstetrician and refurbishment of the maternity unit, along with reintroduced ultrasound services and strengthened anaesthesia services using modern equipment and ultrasound-guided regional anaesthesia.
- **Strengthened Diagnostics:** Diagnostic capabilities were further strengthened through improvements in laboratory, microbiology, radiology, and sonology services.
- **Community Outreach:** LCH's Community Health and Development Programmes served remote communities across Tehri Garhwal, Uttarkashi, and Dehradun districts, covering maternal and child health, mental health, palliative care, disability inclusion, livelihoods, integrated farming, and animal health.
- **Strategic Partnerships:** Participation in the PM-JAY Atal Ayushman Uttarakhand Yojana expanded access to orthopaedic surgical services, while recognition by the Uttarakhand State Mental Health Authority reinforced LCH's role in mental healthcare. A significant milestone was the approval of a new multi-year partnership with Azim Premji Philanthropic Initiatives to expand maternal and child health and palliative care services in the Thatyur region.
- **Educational Collaborations:** Partnerships with educational institutions and international universities provided clinical electives, internships, mentorship, and professional exchange opportunities.
- **Challenges and Future Plans:** Recruiting and retaining skilled healthcare professionals and ensuring financial sustainability remained key challenges, addressed through prudent financial stewardship, targeted infrastructure investment, and staff development. Future plans include further expanding maternal and child health, palliative care, mental health, rehabilitation, and diagnostic services under the five-year Strategic Plan.

Harriet Benson Memorial Hospital Society (HBMH), Lalitpur, a unit of Emmanuel Hospital Association, serves one of the most underserved communities on the border of Uttar Pradesh and Madhya Pradesh. The hospital remains a source of hope by providing compassionate, good-quality healthcare to economically disadvantaged families, reflecting its continued commitment to meeting the healthcare needs of vulnerable communities.

The hospital provides comprehensive antenatal care, obstetric and gynaecological services, general medicine, outpatient and inpatient care, regular eye camps, vision screening, cataract support, and home-based palliative care. Through home visits, health awareness programmes, and compassionate care, HBMH has built strong relationships within the community while ensuring dignified, affordable, and quality healthcare for those with limited access to medical services.

Major Highlights of the Hospital

- **Comprehensive Healthcare Services:** Continued delivery of antenatal care, obstetric and gynaecological services, general medicine, outpatient and inpatient care, eye care services, cataract support, and home-based palliative care for patients with chronic and life-limiting illnesses.
- **Healthcare Impact:** During the reporting period, the hospital recorded 3,199 outpatient visits and 228 admissions. Maternal health services supported 49 deliveries and 35 obstetric surgeries, while 104 ophthalmic surgeries restored vision and improved the quality of life for many patients. The hospital also provided ongoing care for 194 patients with cancer and other life-limiting illnesses.
- **Strengthened Palliative Care:** With support from the Savitri Waney Charitable Trust and the Azim Premji Foundation, the hospital strengthened palliative care services through improved wound care, pain management, psychosocial counselling, caregiver support, and community awareness. The Azim Premji Foundation also provided operational and capital support to expand hospital services.
- **Community Partnerships:** Continued collaboration with Emmanuel Hospital Association in India, the USA, and Canada. Through support from EHA-USA, the hospital identified persons with disabilities in villages across the Bar Block region and linked them with government welfare schemes and services, promoting inclusion and improving access to essential benefits.
- **Community-Centred Care:** Through home visits, health awareness programmes, and compassionate care, the hospital continued to strengthen community relationships while serving economically disadvantaged families and patients unable to access tertiary healthcare services.

Herbertpur Christian Hospital (HCH), a unit of Emmanuel Hospital Association, has been providing holistic, Christ-centred healthcare to the people of Pachuadon and surrounding regions for nearly nine decades. The hospital continues its mission of delivering quality, compassionate healthcare while strengthening clinical services, nursing education, and community health programmes.

The hospital offers comprehensive services in General Surgery, Orthopaedics, Obstetrics & Gynaecology, Medicine, Dentistry, Radiology, Laboratory Services, Emergency Care, Pulmonology, Dermatology, ENT, and Diabetic Care. During the year, HCH also strengthened its nursing education by becoming the first EHA unit to receive INC approval for a College of Nursing offering the B.Sc. Nursing programme, alongside its GNM programme.

Major Highlights of the Hospital

- **Comprehensive Healthcare Services:** The hospital managed 16,540 emergency patients, performed 2,970 surgeries, recorded 440 deliveries, and conducted 1,43,647 laboratory investigations. Radiology services were strengthened through a new PACS system, with an 80% increase in ultrasonology services.
- **New Clinical Services:** Introduced Pulmonology and Pulmonary Function Testing (PFT), restarted Dermatology and ENT services, and established an Integrated Diabetic Clinic, Diabetic Foot Screening, TB DOTS and Truenat services, Developmental Paediatrics tele-consultation, PRP and podiatry services, and Neonatal Hearing Screening. Electronic Medical Records (EMR) were also implemented.
- **Nursing Education Milestone:** Achieved INC approval for the B.Sc. Nursing programme in December 2025, making Herbertpur Christian Hospital the first EHA unit to establish a College of Nursing. The institution now enrolls 50 students annually across GNM and B.Sc. Nursing programmes, with the 9th GNM batch graduating during the year.
- **Community Health & Development:** The programme served over 200 villages across Dehradun and Saharanpur through initiatives including Anugrah Disability Programme, Burans Mental Health Project, home-based palliative care, SHIFA Mental Health Project, and the resumed Nari Niketan programme.
- **Strategic Partnerships:** Collaborations continued with key medical, academic, government, and development partners to strengthen healthcare, rehabilitation, nursing education, and community programmes.
- **Research and Digital Advancement:** Participated in the Mariwala Health Initiative research study on self-harm response frameworks, expanded academic collaborations, and advanced digital healthcare through EMR and PACS integration.

TRANSFORMING PEOPLE THROUGH
EDUCATION AND CARE

Mr. Vinay John
Nursing Director

NURSING IN EHA

As we reflect on 2025–2026, we thank God for His faithful guidance and provision. The year brought meaningful progress in nursing leadership, education, workforce development, and quality improvement, reinforcing EHA's commitment to excellence in compassionate healthcare.

Caring with Skill. Leading with Compassion

Across Emmanuel Hospital Association's nineteen healthcare units, six Schools of Nursing, one College of Nursing, community health programmes, and palliative care services, nursing connects clinical excellence with compassionate care. EHA nurses assess, monitor, respond, educate, advocate, and coordinate treatment while ensuring safe, respectful, and evidence-based care. Their vigilance in recognizing clinical deterioration, preventing infections, reducing medication errors, preventing falls and pressure injuries, and strengthening patient safety directly contributes to better healthcare outcomes.

Investing in the Future

Nursing education remains a strategic priority. Approximately 490 students are enrolled across EHA's six Schools of Nursing and one College of Nursing, with around 140 new students joining each year. Students receive quality education, hands-on clinical training, leadership development, and professional mentoring. EHA-trained nurses are recognized for clinical competence, compassionate care, and professional integrity. EHA continues to strengthen simulation-based training and expand student intake to meet India's growing demand for qualified nurses.

Extending Care Beyond Hospital Walls

EHA nurses bring essential services to villages and underserved communities through maternal and child health programmes, non-communicable disease services, home-based palliative care, integrated health programmes, health education, and preventive health initiatives.

Professional Development and Leadership

EHA is committed to continuous professional development through in-service training, skill enhancement, exchange programmes, further studies, and deputations to EHA hospitals and leading healthcare institutions. A five-day Nursing Leadership Workshop at Duncan Hospital, Raxaul, brought together nearly 70 nurses from 15 EHA units, strengthening skills in emergency and critical care, evidence-based nursing, leadership, and compassionate care. The workshop was supported by EHA USA.

The Neonatal Survival Training Program strengthened newborn care by training 248 healthcare professionals through eight workshops, along with mentoring and networking initiatives. The programme is supported by EHA Canada. EHA also conducted its Common Entrance Test (CET) in 2026 for Post Basic B.Sc. Nursing and M.Sc. Nursing programmes, supporting the development of future nurse leaders.

Palliative and Ethical Care

Nurse-led home-based palliative care remains a hallmark of compassionate, holistic healthcare across EHA. Nurses lead multidisciplinary teams in providing evidence-based pain management, wound care, symptom control, and psychosocial support to patients and families in their homes. EHA nurses uphold integrity, accountability, confidentiality, fairness, and professional excellence while ensuring dignity, patient rights, safety, and quality of care. Continuous Nursing Education (CNE) programmes across EHA hospitals help nurses remain updated, competent, and responsive to emerging healthcare needs.

Key Initiatives and Achievements

 **Advanced Critical Care Fellowship for Nurses (ACCFN)**

Madhipura Christian Hospital launched the Advanced Critical Care Fellowship for Nurses (ACCFN) in partnership with Christian Medical College, Vellore, strengthening nurses' capacity in critical care.

 **International Nurses Day 2026**

EHA celebrated International Nurses Day 2026 under the theme **"Our Nurses. Our Future. Empowered Nurses Save Lives,"** honouring nearly **950 NURSES** serving across EHA units.

OUR NURSES. OUR FUTURE. EMPOWERED NURSES SAVE LIVES

OTHER NOTABLE INITIATIVES

 **Duncan Hospital School of Nursing** recognized as a **Mentor Institute** by the Government of Bihar.

 **Participation in FOGSI's Manyata Safe Delivery App initiative.**

 **Safe Delivery App pilot at Christian Hospital Chhatrapur.**

 **Continued partnership between Baptist Christian Hospital School of Nursing and the Indian Red Cross Society.**

 **Nurse-led counselling for NICU mothers at Makunda Christian Hospital.**

 **Continued strengthening of nursing infrastructure at Herbertpur Christian Hospital and Duncan Hospital, Raxaul.**

Challenges

Key challenges include retaining skilled nurses amid increasing migration, adapting to regulatory changes in Assam and Bihar, mobilizing resources for nursing infrastructure, and delays in professional registration for nursing graduates from Christian Hospital Chhatrapur.

Future Plans

EHA plans to implement a five-year Nursing Strategic Plan focused on leadership, workforce development, education, quality, outreach, and excellence in patient care. Priorities include expanding simulation-based clinical training, strengthening community nursing, increasing professional development opportunities, and implementing the EHA Professional Practice Nursing Model to promote evidence-based, compassionate, patient-centred care.

EMERGENCY RESPONSE
Hope in Crisis
EHA's Relief Work in Manipur

CLIMATE

EMERGENCY

Flood Relief

Supported flood relief efforts in the hill districts of Senapati, Manipur, by distributing dry food supplies and hygiene kits to 350 affected families during the May 2025 floods.

Manipur Conflict Relief

Manipur Conflict Relief: The Medical Relief in Manipur project is a collaborative initiative of APF and EHA supporting Internally Displaced Persons (IDPs) residing in relief shelters across the three districts of Manipur—Bishnupur, Churachandpur, and Kangpokpi. The project provides basic healthcare and psychosocial support, assist critically ill patients with treatment, and empower local communities through health education and lifesaving skills training.

DISASTER PREPAREDNESS & RISK REDUCTION

EHA continued to expand its reach to strengthen community-based First Responders to enhance lifesaving impact and disaster preparedness. During the reporting year, a total of 3,599 individuals were trained as First Responders, including students, youth, working professionals, caregivers, humanitarian workers, and decision-makers from diverse fields, professions, and communities, contributing to stronger community resilience and preparedness.

Awards and Appreciation

Commissioners of Bishnupur and Churachandpur districts during the Republic Day celebrations. In addition, City of Hope awarded an appreciation certificate to EHA for its continuous efforts in providing free medical care to IDPs in Churachandpur.

PARTNERSHIP

Partnerships have been established with key stakeholders including GMR Group, Jesus & Mary college, University of Delhi, Epoch, Azim Premji Foundation, Assam Rifles, the District Commissioner (DC) offices, the Chief Medical Officers (CMO), District Hospitals, Faith Based Organization and individuals. These collaborations have strengthened our disaster response and training delivery, improved coordination, and enhanced community preparedness and response capacity.

DMMU Emergency Response

Manipur Emergency Response at a Glance

FLOOD RELIEF

350 Families

Dry food and hygiene kits distributed to 350 flood-affected families in Senapati district.

PATIENTS TREATED

20,491

Free treatment, medicines, counselling, health teaching and referral support in conflict-affected areas.

COUNSELLING SESSIONS

777 Sessions

Individual and group counselling provided for psychosocial support.

FIRST RESPONDERS TRAINED

736

Local volunteers trained in medical and psychosocial first aid.

CHALLENGES FACED

- ✓ The ongoing uncertainties in Manipur have raised significant safety concerns for the team, volunteers, and partners.
- ✓ Getting volunteers such as doctors and counselors during emergency situations remains a significant challenge.
- ✓ Timely availability of human resources and financial support for effective response is a major challenge.

- ✓ Provide immediate support and assistance to disaster-affected communities.
- ✓ Strengthen local communities as first responders through training and capacity-building initiatives to maximize lifesaving impact.
- ✓ Promote disaster risk reduction measures to minimize disaster-related risks and impacts.
- ✓ Explore new opportunities and strengthen partnerships with organizations and companies to expand training and capacity-building programs.

KEY ACHIEVEMENTS IN PALLIATIVE CARE SERVICES

FINANCIAL YEAR 2025-26

The goal of palliative care is to uphold the dignity of individuals living with life-limiting illnesses by optimising their quality of life through effective relief of physical symptoms, complemented by a holistic approach that addresses emotional, social, and psychosocial needs. This commitment reflects a patient-centred approach that recognises the inherent value and dignity of every individual.

Over the past year, home-based palliative care services were delivered by 18 EHA units across 19 locations in 9 states of India.

Capacity Building

During the financial year, 26 EHA unit staff were trained through the Psychosocial Skills Workshop. In addition, 18 staff members received training in the Symptom Management Workshop, while 44 staff participated in the Continuing Nursing Education Programme. A total of 49 staff were equipped through the Annual Cross-Learning Event. The Foundation Course in Palliative Care included 6 participants in Palliative Medicine and 2 in Palliative Nursing. The National Fellowship in Palliative Care comprised 2 participants in Palliative Nursing and 1 in Palliative Care Medicine.

Partnerships

We acknowledge with gratitude the support of the Savitri Waney Charitable Trust, Medic Assist International, the Azim Premji Foundation, EHA USA and Canada, along with other partners and supporters who have contributed to strengthening palliative care services across various units.

Service Expansion and Future Priorities

The past year reflects the continued dedication and compassionate service of palliative care teams across all units. Strengthened financial and institutional support has enabled service expansion, including the procurement of six palliative care vehicles, enhancing outreach and access. Progress has also been made in improving access to essential pain management, with several units obtaining Morphine licenses. Ensuring access across all remaining units remains a priority, alongside strengthening systems for timely and effective care delivery.

Looking ahead, the focus will be on strengthening staff capacity and well-being through a newly initiated mentorship program, deepening quality and consolidating the gains of the past few years. Efforts will also prioritise building sustainable partnerships, developing consistent teams across units, and fostering collaboration and shared learning to improve the overall quality and reach of palliative care services.

Robert Kumar
CHD Director

COMMUNITY HEALTH AND DEVELOPMENT

It is my privilege to present the EHA Community Health & Development Programmes Annual Report for 2025–26.

My heart is filled with gratitude and joy as I reflect on the Lord’s faithfulness in each of our programmes. Most projects continually face challenges related to funding and human resources; however, when I see the lives transformed and the outcomes achieved, I can only say, “Thank You, Lord, for Your faithfulness.”

PROGRAMME HIGHLIGHTS

MENTAL HEALTH

64,933
people

benefited from mental health interventions

Activities included:

- Self-harm counselling
- Awareness on positive mental health and common mental disorders
- Psychosocial support
- Life skills and resilience training for youth and adolescents
- Home visits
- Support for individuals with mental illness, including access to medication

DISABILITY AND INCLUSION

5,247
persons with disabilities

were supported through various initiatives

Initiatives included:

- Screening children for developmental delays
- Learning centres and early intervention programmes
- Family retreats
- Home-based rehabilitation services
- School enrolment and inclusive education support
- Caregiver training and empowerment

NON-COMMUNICABLE DISEASES (NCDs)

201,469
people

reached through our NCD programmes

Our NCD programmes included:

- Diabetes screening
- NCD risk-factor assessments
- Treatment and follow-up services
- Community outreach programmes
- Promotion of healthy lifestyle practices
- Cancer diagnosis and treatment support

PROGRAMME HIGHLIGHTS

Acknowledgements

This significant impact would not have been possible without the faithful support of our partners. We are deeply grateful to them.

Your partnership, encouragement, and generosity have enabled us to serve some of the most vulnerable communities across India.

I completed my service with Emmanuel Hospital Association and retired in January 2026. Therefore, this will be my final annual report as Community Health Director. I would like to express my sincere gratitude to EHA, our partners, colleagues, and friends who trusted me and provided opportunities to serve over the years. I am especially thankful to the Community Health staff whose dedication, perseverance, and compassion have continually inspired me. Their commitment to serving communities, often under challenging circumstances, has been the driving force behind the achievements highlighted in this report.

As I conclude this chapter of my journey, I thank God for His guidance and faithfulness and pray that He will continue to bless and strengthen the work of EHA in the years ahead.

SHALOM DELHI

Dr. Rajni Herman
SHALOM

Shalom Delhi is a Palliative care unit of EHA, providing holistic care for patients with HIV, Terminal Cancer and NCD. Its various components include a hospital clinic with inpatient and outpatient facilities, home care programs for patients with HIV, Cancer and NCD, an Adolescent program, Mental wellness program, Palliative care work among transgenders, Support groups, awareness program on disability and a Livelihood program.

SERVICES RENDERED
HOSPITAL CARE

Annual medical review services were provided to 52 individuals from HBC families, 22 TGs and 6 children infected with HIV. Mental health care services – 12 Training sessions provided for artisans from the Shalom livelihood centre, 11 training sessions provided to Families, 12 support group meetings provided for widows struggling with loneliness, 12 support group meetings provided for fully disclosed HIV+ older adolescent girls, 8 positive boys support group meetings were held, and 39 counselling sessions provided for clients seeking support.

EDUCATIONAL SUPPORT BY SHALOM

Empowering Children. Enabling Futures.

Shalom supported the education of **7 girls and 1 boy** from families affected by HIV. **27 girls** enrolled with Invisible Girl Project (IGP) were provided educational assistance.

BREAKDOWN OF 8 STUDENTS

(From families affected by HIV)

Making a difference through education
Every child supported today, is a leader of tomorrow.

34 Girls Supported

1 Boy Supported

35 Total Students/ Girls Supported

Program Activities Summary

LIFE SKILLS & CHARACTER DEVELOPMENT PROGRAM

KEY ACTIVITIES CONDUCTED DURING THE REPORTING YEAR

The reporting year marked the successful completion of **Batch 12** of Character Development and **Batch 22** of the Life Skills education program.

Challenge faced

Funding for the Shalom-Livelihood program has come down; we are trying to raise funds from different sources

Livelihood program

9 Artisans are being trained in the Kiran centre. 18 sales were held throughout the year, some of the venues were: Swiss German Embassy mela, Delhi University, and in different FBO's. Mental wellness classes were conducted monthly for the artisans. Health awareness classes were conducted by Shalom nurses on various topics, and marketing strategy classes were held twice a month for the artisans. During the reporting period, Kiran Artisans were trained in "Fire Safety Measures".

Partnerships

New Partnerships were forged with:

- ✓ Howard University-Global Community Health lab
- ✓ Azim Premji Foundation

Home-Based Care: Cancer and NCD Program

Plans for Future

- ✓ To search for a permanent place for Shalom to be established.
- ✓ Strengthen the psychosocial aspects provided by the Shalom team.
- ✓ To work on enhanced collaborative networking and strategic partnerships with organisations doing palliative work in Delhi and across India.
- ✓ To explore areas of raising local funds and resources so that we sustain the ongoing programs on a long-term basis.

Mrs. Christy Martina
Head - Research

EHA RESEARCH

I am thankful to the EHA board for entrusting me with the research responsibility and for their continued trust and support. The EHA Institutional Ethics Committee (IEC), chaired by Dr. Jacob Puliye, continued to utilize an online platform to evaluate the research protocols. Dr. Jacob Puliye, along with other members, Dr. Savita Duomai, Dr. Annamma John, Ms. Namrata Mohapatra, Ms. Imtinenla Aier, and Dr. Khushboo Nand, who contributed their time and expertise to ensure protocols were reviewed with the highest ethical standards.

INSTITUTIONAL ETHICS COMMITTEE (IEC)

REPORTING YEAR HIGHLIGHTS

IEC REVIEWS

8

Protocol Deviations

14

Serious Adverse Events

2

Protocol Amendments

The IEC ensures ethical conduct, participant safety, and integrity of research.

22 NEW PROTOCOLS INITIATED BY EHA

10 Research Studies

9 Multicentric Studies

3 Outside Institutions

Session

We had an insightful session on identifying research gaps and developing research questions with Dr. Shantidani Minz, Professor, Community Medicine, CMC Vellore.

Registration

All ethics committees reviewing biomedical, social, and behavioral science research for health conducted in India involving human participants are required to register the ethics committees on the Naitik portal with the Department of Health Research (DHR). EHA Institutional Ethics Committee received the provisional registration certificate in June 2024 and has applied for the final registration of the Ethics Committee.

Partnerships

Collaboration with the Royal Society of Tropical Medicine and Hygiene (RSTMH)

Established collaboration resulting in an ongoing research project supported by a grant obtained through RSTMH. This partnership enhances EHA's visibility and strengthens its access to global research networks.

Participation in GRADE and Guideline Development Workshops

Attended workshops with full sponsorship, reflecting recognition and institutional support for EHA from the Department of Health Research (DHR) and the Indian Council of Medical Research (ICMR).

Challenges Faced

Limitations in the capacity building due to funding constraints to participate in research activities. A formal notification mandated the progress towards final ethics committee registration, adding compliance-related workload.

Future Plans

Kick-start capacity-building workshops and research initiatives

By establishing regular research sessions and fostering a culture of inquiry and collaboration, with the long-term goal of developing a sustainable research ecosystem.

Translate research outputs into policy briefs and recommendations

To inform and strengthen government health programs.

Advance the Institutional Ethics Committee

By completing the final registration process and aligning Standard Operating Procedures (SOPs) with national standards.

Plan and implement grant-writing initiatives and training sessions

to enhance institutional research capacity.
